

New Aboveground Petroleum Storage Tank Installation Rebate Submission Form

PRE-APPROVAL IS REQUIRED

This form must be completed in full by a participating Oilheat Dealer including project invoice. Submission of the application form constitutes a representation on the part of the participating Oilheat Dealer that the work shown on the form has actually been completed. The Oilheat Dealer must confirm with OHCC staff that funds are available and that the project has been approved PRIOR to the purchase and installation of the equipment.

This form and invoice showing installation of each appliance must be submitted to the Oil Heat Comfort Corp. for the customer to be eligible for consideration of any rebate(s). Failure to furnish all necessary documentation will result in the customer being declared ineligible for consideration of any rebate(s). The Oil Heat Comfort Corp. assumes no liability for a customer being declared ineligible for consideration of any rebate(s). Rebate checks will be paid directly to the property owner by OHCC.

The OHCC UPGRADE AND SAVE – LI Rebate Program is for the installation of a new aboveground heating oil storage tank to replace any existing underground or aboveground storage tank. Aboveground tanks include those located out of doors or inside a property, including basements. It does not apply to any storage tanks installed and buried underground. Oilheat dealer must provide a Fuel Oil Storage Tank Evaluation form for each rebate application submitted. Forms can be downloaded at UpgradeAndSaveLI.com.

\$300.00 rebate for tank replacement upon submittal of proper form(s) and invoice for new tank.

***DISCLAIMER:**

The Oilheat Dealer seeking a rebate must submit a full and complete Application form. Submission of the Application form constitutes a representation on the part of the participating Oilheat Dealer that the work shown on the form has actually been completed. A validation inspection must be performed by the participating Oilheat Dealer after the installation of each new qualifying tank and the result of that inspection must be documented on the Application and Tank Evaluation Form. The Oilheat Dealer agrees to comply with all rules and regulations governing the installation of residential fuel oil tanks, manufacturer's installation instructions and all applicable Building Codes. The Oil Heat Comfort Corp. assumes no responsibility whatsoever for the installation, inspection, permitting or testing of the qualifying tank or any associated oil storage/piping system or abandonment or removal of existing tank; and, by issuing a rebate, makes no representation, warranty or guarantee regarding the qualifying tank(s) or the associated fuel oil storage/piping system. This rebate will not pay for tank-piping removal. The Oil Heat Comfort Corp. disclaims any liability for any personal injury, property damage, business losses or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly arising from the installation of the qualifying tank(s). Furthermore, OHCC is not liable for existing site/tank conditions or removal of ASTs or USTs from site. This rebate is not affiliated with any other rebate programs.
